NOTE.—That in a Bissextile or Leap-Year, the number of Sundays after *Epiphany* will be the same as if *Easter-Day* had fallen one day later than it really does. And, for the same reason, one day must, in every Leap-Year, be added to the day of the month given by the Table for *Septuagesima* Sunday, and the like must be done for the first day of Lent (commonly called *Ash-Wednesday*); unless the Table gives some day in the month of March for it; for in that case, the day given by the Table is the right day.
