

## PROPER NAME INDEX

This index is to cases and proper names. Cases are indexed under the names of both plaintiff and defendant; in actions brought by or against executors or administrators, cases are indexed under the names of such executors or administrators, where they appear, as well as under the name of the decedent. In actions involving attachments, cases are also indexed under the name of the garnishee (indicated by designation "gar"). Where two or more actions bear the same caption, they are distinguished by numbering them [1], [2] *et seq.* in brackets. In a few instances where entries relating to process cannot be definitively assigned to any one of several cases bearing the same caption, they are assigned to all such cases followed by a question mark placed within brackets. For indexing purposes, complaints by servants against masters have been entered in the same format as actions, *viz.* Doe, Jane (servant) v. Roe, Richard (master).

Names with variant spellings are listed in the form in which they appear most frequently in the text; if no choice by this criterion is feasible, the most modern spelling is used. Variant spellings are given when the name is the subject of the entry, and not otherwise. In a few instances in which it could not be determined whether the same individual was referred to in *Liber* entries of the same, or substantially the same, names, separate listings have been made. An italicized letter *n* appended to a page number indicates that the reference appears in the footnotes.
