

shall be lead or brass, securely caulked into soil pipe. If said connection be of lead, it shall be made by a combination lead and brass brand or ferrule with a cast brass floor flange not less than one-quarter inch in thickness, securely soldered to lead, and a tight joint made with the mixture of red and white lead of sufficient thickness to make it secure when bolted to the flange of the closet; and if said connection be of brass alone, the floor plate will be screwed to the brass ferrule and bolted to the closet flange, as above described.

SEC. 35. *And be it enacted*, That where the water supply is not ample for the proper flushing of any water-closet or urinal, the Inspector of Plumbing must direct that such steps be taken at once that a proper supply may be had at all times.

Insufficient water supply.

SEC. 36. *And be it enacted*, That no safe or refrigerator shall be allowed to be drained by pipes directly connected with the house drain or main sewer.

Drainage of refrigerators.

SEC. 37. *And be it enacted*, That all laundry wash trays, kitchen sinks or other sinks, when built or constructed within any building, store, house or part of house, shall be made of non-absorbent material.

Laundry wash trays, etc.

SEC. 38. *And be it enacted*, That the master plumber in charge of any work shall notify the Inspector of Plumbing, upon blank forms to be provided, as soon as work erected, altered or constructed by him is ready for inspection, and said Inspector shall at once inspect said work, using the water or peppermint test, or any other test as the said Inspector may see fit, and in no case shall any plumbing work or any part thereof be covered or in any manner hidden from view until the approval and consent of said Inspector shall have first been obtained and a certificate as hereinbefore provided for shall be received.

Inspector of Plumbing to make thorough inspection.

SEC. 39. *And be it enacted*, That the entire testing as provided for in the preceding section shall be made by the Inspector of Plumbing or his duly appointed assistant, and all changes or alterations ordered by said Inspector or his assistant must be complied with by the master plumber in charge of said work, subject to the fines as set forth in Section 7 and Section 8 of this Act upon a failure or neglect so to do.

Changes or alterations to be made.

SEC. 40. *And be it enacted*, That all prosecutions for the violation of this Act, or any part thereof, shall be brought in the name of the Board of Health of the respective city or town where the violation occurred.

Prosecutions for violations.
