

fund and the general emergency fund, as provided in the law under which those appropriations were made. There have been certain disbursements out of the post-war construction fund in the fiscal year and further disbursements will be necessary between now and the time the actual construction will begin. The payments up to this time have been principally for architectural fees for the preparation of plans and specifications which will be in readiness when the war emergency is over and we will be able to proceed with the construction of the projects. I am giving you herein a statement of the construction projects which have been approved up to this time by the Board of Public Works upon the recommendation of the Maryland Commission on Post-War Reconstruction and Development. It will be necessary, however, that the money to pay for these projects be provided and I am assuming that this will be covered in the Budget and other legislation which will be introduced by the Governor at the 1945 session. The figures I am giving merely show the name of the agency for which construction is contemplated and the total amount allotted for such construction, which has constituted the basis for the authority given for the preparation of plans and specifications.

Department of Budget and Procurement ..	\$50,000.00
Department of Motor Vehicles.....	450,000.00
Department of Research and Education ..	89,244.00
