

13. Retirement Benefits:

Maryland State Retirement and Pension Systems (System):

The State contributes to the Maryland State Retirement and Pension Systems (System), an agent multiple-employer public employee retirement system established by the State to provide pension benefits for State employees (other than employees covered by the Mass Transit Administration Pension Plan described below) and employees of 127 participating political subdivisions within the State. Additionally, the System provides benefits for the Maryland Automobile Insurance Fund and the Injured Workers' Insurance Fund (neither of which are within the State's reporting entity). The non-State entities that participate within the System receive separate actuarial valuations in order to determine their respective funding rates and actuarial liabilities. Retirement benefits are paid from the System's pooled assets rather than from assets relating to a particular plan participant. The System is considered part of the State's financial reporting entity and is included in the State's financial statements as a Pension Trust Fund.

Plan Description:

The System, which is administered in accordance with Article 73B of the Annotated Code of Maryland, consists of the following systems which are managed by the Board of Trustees for the System. All retirement and pension systems discussed herein are included in the System. All State employees and employees of the participating political subdivisions (including the Maryland Automobile Insurance Fund and the Injured Workers' Insurance Fund) are covered by the systems.

"Retirement Systems" — retirement programs for substantially all State employees, teachers, State police and judges who are not members of the State Pension System.

"Pension Systems" — retirement programs for employees and teachers hired after January 1, 1980, and prior employees who have elected to transfer from the Retirement Systems.

As of June 30, 1994, membership in the System consists of the following:

The System provides retirement, death and disability benefits in accordance with State statutes. Vesting begins after completing 5 years of service. A member terminating employment before attaining retirement age but after completing 5 years of service, becomes eligible for a vested retirement allowance provided the member lives to age 60 (age 62 for the Pension Systems, age 50 for State Police) and does not withdraw his or her accumulated contributions. Members of the Retirement System may retire with full benefits after attaining the age of 60, or after completing 30 years of service credit regardless of age. A member of the Pension Systems may retire with full benefits after completing 30 years of service credit regardless of age, or at age 62 or older with specified years of service credit. State Police members may retire with full benefits after attaining age 50, or after completing 25 years of service credit regardless of age.

The annual benefit for Retirement System members is equal to 1/55 of a member's high three-year average salary multiplied by the number of years of service credit. A member may retire with reduced benefits after completing 25 years of service, regardless of age. A member of the Pension System shall receive upon retirement an annual service retirement allowance equal to 0.8% of the member's high three-consecutive-year average salary multiplied by the number of years of service credit, with a provision for additional benefits for compensation earned in excess of the Social Security wage base. A member may retire with reduced benefits after attaining age 55 and completing 15 years of service. The annual retirement allowance for a State Police member is equal to 1/45
