

"Class B;" that receiving the next highest benefit "Class C;" that receiving the next highest benefit "Class D;" and that receiving the smallest benefit "Class E." The holdings of any one landowner need not necessarily be all in one class, but the number of acres in each class shall be ascertained, though its boundary need not be marked on the ground or shown on the map. The total number of acres owned by one person in each class and the total number of acres benefited shall be determined. The total number of acres of each class in the entire district shall be ascertained and presented in tabulated form. The scale of assessment upon the several classes of land returned by the engineer and viewers shall be in the ratio of five, four, three, two and one; that is to say, as often as five mills per acre is assessed against the land in "Class A," four mills per acre shall be assessed against the land in "Class B," three mills per acre in "Class C," two mills per acre in "Class D," and one mill per acre in "Class E." This shall form the basis of the assessment of benefits to the lands for drainage purposes, and the basis of all future assessments, taxes, levies and costs connected with the drainage district, except as the same may be modified or changed under order of the Board of County Commissioners at the time of the final hearing or to conform to any decree of the Courts.

SEC. 8. *Be it enacted*, That the engineer and viewers appointed under this act shall at all times keep an accurate account and report to the Board of County Commissioners the name and number of days such person was employed on the survey and the kind of work he was doing and any expenses that may have been incurred in going to and from the work, and the cost of any supplies or material that may have been used in making the survey.

SEC. 9. *Be it enacted*, That when the final report is completed and filed it shall be examined by the Board of County Commissioners, and if it is found to be in due form and in accordance with the law it shall be accepted, and if not in due form it may be referred back to the engineer and viewers, with instructions to secure further information, to be reported at a subsequent date to be fixed by the board. When the report is fully completed and accepted by the board a date not less than thirty days thereafter shall be fixed by the board for the final hearing upon the report, and notice thereof shall be given by publication in a newspaper of general circulation in the county and by posting a written or printed notice on the door of the courthouse and at five conspicuous places throughout the dis-
