

the finished product obtained fully meets the requirements of the United States Pharmacopœia or national formulary: In the case of confectionery, if it contains terra alba, barytes, talc, chrome yellow or other mineral substance, except salt, or poisonous color or flavor, or other ingredient deleterious or detrimental to health, or any vinous, malt or spirituous liquors or compound, or narcotic drug. In the case of food:

*First.* If any substance has been mixed or packed with it so as to reduce or lower or injuriously affect its quality, strength or purity.

*Second.* If any substance has been substituted wholly or in part for the article.

*Third.* If any valuable constituent of the article has been wholly or in part abstracted, or if the product be below that standard of quality, strength or purity represented to the purchaser or consumer.

*Fourth.* If it be mixed, colored or changed in color, powder coated, stained or bleached, in a manner whereby damage or inferiority is concealed.

*Fifth.* If it contain any added poisonous or other added deleterious ingredients which may render such article injurious to health; provided, that when in the preparation of food products for shipment they are preserved by an external application applied in such manner that the preservative is necessarily removed mechanically or by maceration in water or otherwise, and directions for the removal of said preservative shall be printed on the covering of the package; the provisions of sections 189 to 200 shall be construed as applying only when said products are ready for consumption.

*Sixth.* If it consists in whole or in part of a filthy, contaminated, decomposed or putrid animal or vegetable substance or any portion of a substance unfit for food, whether manufactured or not, or any animal or vegetable substance produced, stored, transferred or kept in a condition which would render the article diseased, contaminated or unwholesome, or if it is the product of a diseased animal or one that has died otherwise than by slaughter, or that has been fed upon the offal from a slaughter house, or if it is the milk from an animal fed upon substances unfit for food for dairy animals, or from an animal kept and milked in a filthy or contaminated stable, or in surroundings that would render the milk contaminated.

In the case of water:

*First.* If manufactured for sale, produced for sale, exposed for sale or advertised for sale, as a spring, well or mineral water, or if served in a public place as a spring, well or mineral water, it be found upon analysis to differ in composition or constituents from the composition or constituents of the water taken from the spring, well or other original source, or alleged original source, from which such water is obtained or alleged to be obtained, unless the changes therein or additions thereto be plainly indicated upon the label; provided, that in the case of waters manufactured to resemble natural mineral waters, such waters must be labeled in a conspicuous manner "artificial"; and provided further, that when such waters are sold or served as mineral waters, they must contain one or more mineral constituents in sufficient quantities to have a therapeutic effect from these constituents when a reasonable quantity of the water is consumed.
