

Provided, that not more than one high school shall be granted State aid under the provisions of this Article in the same village, town or city, unless each additional high school has an average daily attendance in excess of two hundred pupils; provided that this provision shall not affect the right of schools on the approved list at the date of passage of this Act to receive State aid. Should any error in the amount of State aid for any high school be discovered after the original list is certified, the State Superintendent of Schools shall correct his report by certifying the proper changes to the Comptroller. In the event that the amount due all high schools eligible for State aid exceeds the amount appropriated therefor, then the amount appropriated may be pro-rated among such high schools.

197. Each county high school in the first group shall receive State aid on the basis of the cost of instruction and in the following manner: The sum of nine hundred dollars (\$900) on account of the principal, and the sum of six hundred dollars (\$600) on account of each of the first two assistants employed for full-time academic high school work; the sum of four hundred and fifty dollars (\$450) on account of each of the first two full-time special teachers; the sum of four hundred and fifty dollars (\$450) on account of the next full-time assistant teacher employed for regular (academic) high school work, and the sum of one hundred and fifty dollars (\$150) on account of each additional full-time high school teacher, provided the total amount does not exceed the sum of five thousand dollars (\$5,000). For high schools in Baltimore City the amount on account of each of the senior high schools shall be six thousand dollars (\$6,000). In this Chapter the term "Special Teacher" shall be construed to mean a teacher of commercial, manual, or industrial training, home economics, agricultural branches, music, physical education, fine or applied arts. Each high school of the second group shall receive State aid on the basis of the cost of instruction, and in the following manner: One-half the salary of the principal, not exceeding six hundred and fifty dollars (\$650).

State aid shall not be allowed for the second academic assistant employed in any first group high school unless such high school has an enrollment of at least fifty-five bona fide high school pupils and an average daily attendance of at least forty-eight pupils; and State aid shall not be allowed for the third academic assistant employed in any first group high school unless such high school has an enrollment of at least ninety bona fide high school pupils, and an average daily attendance of at least eighty high school pupils; and State aid shall not be allowed for the fourth academic assistant employed in any first group school unless such high school has an enrollment of at least one hundred and twenty-five bona fide high school pupils and an average daily attendance of at least one hundred and ten pupils; and State aid shall not be allowed for the fifth, or any additional academic assistant, unless for each of such additional assistants there are thirty-five additional pupils enrolled. State aid shall be allowed for part-time special
