

Vienna" may authorize. The said "The Commissioners of Vienna" shall have the right of entry at reasonable hours to all buildings and premises having any connection with the water supply under its jurisdiction, and may order and require such changes in all water connections, or plumbing, as they may deem necessary to eliminate improper use of water or to correct defective plumbing. No private water supply installation shall be constructed in the town of Vienna without the person, firm or corporation doing the work having first obtained a permit from "The Commissioners of Vienna" and paid a reasonable charge therefor, and such plants shall then be installed, maintained and operated under such rules and regulations as "The Commissioners of Vienna" may require. Any violation of any of the provisions of this section shall be a misdemeanor, punishable under Section 562 of this Article.

1922, ch. 423, sec. 9.

555. For the purpose of paying the interest on the bonds and for the redemption of said bonds, as hereinbefore provided, covering the cost of water connections, as provided under Section 553, the said "The Commissioners of Vienna" shall make such assessment for each of such connections as they shall determine to be necessary. All of said assessments for water connections shall be uniform throughout the town, subject, however, to revision annually by "The Commissioners of Vienna" as costs and conditions may require. Assessments for water connections shall be payable annually for a period of years co-extensive with the period of last maturity of the bonds, out of the proceeds of which they are constructed; provided, however, that "The Commissioners of Vienna" shall establish a fixed uniform charge for all water connections, fully sufficient to cover their cost and changeable annually, which any property owner may elect to pay in one sum, at the time the connection is extended to his property line by "The Commissioners of Vienna," instead of said annual payments for said connection as above provided; and provided further, that any property owner, at any time during the life of a connection assessment, may extinguish the same by payment in cash of an amount, which, if put at interest at 3½ per cent., compounded annually, would yield an annuity equal to the annual connection assessment for the period for which said assessment has yet to run. Water connection assessments shall have the same priority rights, be payable at the same time and in the same manner, be enforceable in the same way, and be subject to the same penalties for non-payment as front foot assessments.

1922, ch. 423, sec. 10.

556. All sums collected by "The Commissioners of Vienna" for front foot and connection assessments, levied against property for water construction, as provided under Sections 552 and 555, shall be set aside as a separate fund and designated as the "Current Interest and Redemption Fund Account," from which fund interest shall be paid on all outstanding bonds, and the balance, if any, applied to the redemption of said bonds, as provided under Section 550. "The Commissioners of Vienna," in order
