

The said Commission shall have forwarded to each resident taxpayer not on the list of qualified voters prepared by the Supervisors of Elections and to each non-resident taxpayer, at the last known addresses a copy of the various official publications on the matter, and a copy of the order, fixing the time and place of the election, together with a blank ballot, across the face of which has been printed or written the words "Resident Taxpayer's Ballot" and "Non-Resident Taxpayer's Ballot", respectively. If such taxpayer desires to vote on the question, the proper mark shall be made thereon, in the presence of a notary, whose acknowledgment shall be endorsed and whose seal affixed to said ballot, the same then being forwarded in a sealed registered package to the said Commission, before the close of the polls, and the said ballot shall be counted as a yea or nay vote, on the question of the bond issue.

The Board of Election Supervisors shall designate one or more polling places within the district or area and shall hold an election, appointing judges and clerks for each polling place, who shall be the same in number and receive the same compensation as that received in a County, State or general election, provided, however, that they may in case of a separate ballot on said bond issues, at times of County, State, or general elections, appoint such additional clerical help as may be needed and approved of by said Commission.

The election shall conform to the laws governing in said County, and the ballot shall contain the words "For Sewerage and Drainage Bond Issue" and "Against Sewerage and Drainage Bond Issue." Returns of the votes shall be certified by the Board of Supervisors of Elections to the Board of County Commissioners. That in the event of unfavorable election, the Commissioners may request another election within a year, subject to the restrictions as to date hereinbefore set forth.

1914, ch. 627, sec. 468F.

**883.** It may be lawful instead of following the method provided in Section 882, that where and whenever sixty per cent. of the taxpayers on real property, or signers representing at least sixty per cent. of the assessable real property, in any sewerage or drainage district or area in Montgomery County, shall file with the said Commission a petition stating the location and extent of a proposed sewerage or drainage system, the public need therefor, and the names and residences of the signers, the said Commission shall thereupon have made an accurate survey of the said district or area, and a map and report prepared showing what part of the main sewerage or drainage system is included, the number of public, private and manufacturing buildings, and the number of persons residing in, or to be served. They shall also have prepared detail plans showing the size and location of the trunk, interception or outfall sewer, forming part of the main sewerage or drainage plan involved, the size and location of all local systems, of mains and laterals, and the location, character and size of such plant or means of disposal of the sewerage or water, collected by such system or systems, and the probable cost of constructing and the annual
