

of said area shall agree to the conditions that may be imposed by said Commission.

1918, ch. 122, sec. 17.

1007. Whenever said Commission shall deem such action advisable it shall institute, maintain and operate such system of refuse collection and disposal in any part or parts of the Sanitary District as in its judgment shall best promote public health, economy and convenience, and shall prescribe the territory so to be served. The Commission shall have full power to prescribe and enforce rules and regulations governing the treatment and storage of all varieties of refuse on private property before collection. Whenever a system of refuse collection and disposal shall be establishing in any area, existing systems or methods of refuse disposal within said area shall be abandoned, and all properties shall make use of the system provided by the Commission. Any violation of the above provisions shall be a misdemeanor punishable under Section 1011 of this subtitle. The area served by any refuse collection and disposal system established by the Commission may be extended from time to time by said Commission as in its judgment may be advisable, and the provisions of this Section shall likewise be applicable to all added territory. For the purpose of providing funds for the establishment or extension of any system of refuse collection and disposal, the Commission may issue bonds which shall be of the same type, subject to the same conditions and carrying the same guaranty of payment of interest and principal as those issued for water supply, sewerage and drainage construction, as provided under Sections 994 and 995 of this subtitle; except that all bonds to be issued under this Section shall mature fifteen years after the date of issue, and that levy shall be made by the County Commissioners of Montgomery and Prince George's Counties as may be necessary to pay the interest on and redeem them at the end of such period. The Commission shall be empowered and directed to fix and collect a reasonable charge upon the owners of all improved properties within the area served by its refuse collection and disposal system, said charge to be payable at the same time and subject to the same conditions as the charges for water service, as specified under Section 1003. All sums so received by the Commission shall be applied to the maintenance and operation of said system and to overhead expenses of the Commission, but all sums received by the Commission from the sale of materials or products resulting from its system of refuse disposal shall be applied by the Commission to the payment of the interest on and redemption of the bonds issued under this Section, in the same manner as benefit and connection charges are applied to payment on water and sewerage bonds, as specified under Section 1002; provided, that if, at any time, said sums so received by the Commission for the sale of materials or products shall be in excess of the total amount necessary to pay all of the interest and sinking fund charges for that year upon the bonds issued under this Section, the Commission shall retain such excess amount and may apply it, in its discretion, to a reduction of the
