

drainage existing at the time of this Act or hereafter established, in such condition as they may be, or with such repairs, changes or modification as the Commission may see fit to order; or to compel the repair, change or modification or connection of such private or municipal system of sewerage or drainage with the County system or systems; or to condemn for use, close up or cause to be abolished or removed in its discretion any private or municipal system or systems of sewerage or drainage, the operation of which in the opinion of the said Commission, is harmful to public health and welfare or is a public nuisance.

(g) The power to frame, promulgate and enforce reasonable rules and regulations for the supervision, protection, management and conduct of work done in connection with the construction, establishment or maintenance of such sewerage or drainage system or systems.

(h) The power to make and enter in the name and on behalf of the County Commissioners of Prince George's County any and all contracts, agreements and stipulations germane to the scope of their duties and powers under this Act.

(i) The power to enter into contract or to co-operate with the County Commissioners of Montgomery County, or their legally authorized agents, where the area or areas that may be served by sewerage or drainage system or systems is located partly in the two counties, and it is desired to plan, construct, establish or maintain a sewerage or drainage system or systems for such area or areas, or where for the purpose of treatment and final disposition of sewerage or drainage from any system or systems in Prince George's County, it is necessary or expedient to locate a part of such system or systems within the bounds of Montgomery County.

(j) The power to enter into contracts or co-operate with the Commissioners of the District of Columbia or their legally authorized agents where the area or areas that may be served by a sewerage or drainage system or systems is located partly in Prince George's County and partly in the District of Columbia and it is desired to plan, construct, establish or maintain a sewerage system or systems for such area or areas; or when, for the purpose of treatment and final disposition of sewerage and drainage, it is necessary or expedient to carry sewerage or drainage originating in one jurisdiction into the other or through a sewerage or drainage system or systems, planned, constructed, established or maintained by the other.

(k) The power to enter into contract or co-operate with a private individual, corporation, or municipality, where any system or systems or part of a system or systems of sewerage or drainage about to be constructed by said individual, corporation, or municipality may be made to serve portions of a sewerage or drainage area or district not included within the bounds of the property owned by said individual, corporation or municipality.

(l) The power to condemn private property for public use according to the provisions of the Public General Laws of Maryland relating there-
