

lishing, or acquiring of sewerage or drainage system in or for said districts or areas.

1914, ch. 793, sec. 529-O.

926. Upon the completion or establishment, by purchase or otherwise, of any sewerage or drainage system in Prince George's County, the said Commission shall have the power and authority, upon the recommendation of the State Board of Health, to require any owner or property within a reasonable distance thereof, to connect his house or property therewith, and any person or corporation failing to make such connection within thirty days after receiving such notice from said Commission, that a connection shall be made, shall be guilty of a misdemeanor and pay a fine of ten dollars a day for each and every day over thirty days that elapses before such connection is made, and the directors of any corporation failing to make such connection when ordered shall each pay a fine of ten dollars a day for each and every day over thirty days that elapses before such connection is made, provided, however, that such parties shall have the right to file an appeal before the expiration of said thirty days, praying relief from the order of the Commission, in which case the time limit shall operate from the date on which the decision on the appeal is rendered.

1914, ch. 793, sec. 529P.

927. Upon the passage of this Act, the Commission shall notify every individual, corporation, or municipality operating a sewerage or drainage system in said County, by mailing them a copy of this Act. And such parties so notified shall within ninety days file with said Commission, a plan of the sewerage or drainage system by them operated; a map showing its extent and the limits of the area served; the location, size, nature, and grade of the various conduits or pipe system; the approximate number of people it serves and the cost of its installation and maintenance, which data after being revised and verified to as full an extent as possible, shall be filed as part of the sewerage and drainage records of said County. After the passage of this Act, every individual, corporation or municipality contemplating the construction and establishment of a sewerage system in said County, shall file in duplicate with the Commission, a set of plans and specifications of the same, together with an estimate of the cost of said system. Said plans and specifications shall be submitted to the State Board of Health for approval as to character, and sanitary efficiency. And if they so approve they shall endorse thereon their approval and pass and transmit in duplicate to the said Commission, copies thereof, which when signed by the Secretary of said Commission, shall be the permit under which the work shall be prosecuted. And if the State Board of Health do not approve they shall make such recommendation to the Commission as they see fit, and the Commission shall thereupon order such recommendations adopted before granting permission for the work to proceed. No change affecting the capacity or efficiency of the system shall
