

1918, ch. 122, sec. 9. 1927, ch. 506, sec. 9.

**1023.** Said Commission shall provide for each and every property abutting upon a street or right of way in which, under this Act, a water main or sanitary sewer is laid, a water service pipe or sewer connection which shall be extended, as required, from the water main or sewer to the property line of the abutting lot, said service pipe or connection to be constructed by, and at the sole expense of, said Commission. When any water main or sewer is declared by said Commission complete and ready for the delivery of water or the reception of sewage, every abutting property owner, after due notice, shall make connection of all spigots or hydrants, toilets and waste drains with said water main or sewer within a time prescribed by said Commission. Where the aforesaid fixtures do not exist, or are of a nature which, in the judgment of the Commission, is improper or inadequate, satisfactory equipment shall be installed. All cesspools, sink drains, and privies shall be abandoned and left in such a way that they cannot again be used nor injuriously affect the public health, said disposition to be determined by the Commission; and all wells that are found by the Commission to be polluted or a menace to health shall likewise be abandoned and closed.

Whenever there exists, at any time after construction or acquisition of any water main or sewer, on any property abutting upon said water main or sewer a condition, due to the refusal of the owner or occupant of said property to connect his, her or its property to either a water main or sewer, that appears to be a menace to the health of the occupants of said property or the occupants of adjoining or nearby property, the Commission may require a connection to either the water main or sewer, or both, if, after ten days' notice and an opportunity to be heard by either the owner or occupant, said Commission determines such condition to be a menace to health as aforesaid. In the event said Commission so determines it shall pass an order requiring said connection or connections in not less than thirty nor more than ninety days, and a refusal to comply with said Order or a violation of any of the other provisions of this section, is hereby declared to be a misdemeanor punishable under Section 1035 of this subtitle. Either side may have a right of appeal to the Circuit Court as appeals are now allowed by law from Justices of the Peace, where the prosecution is before a Justice of the Peace.

1918, ch. 122, sec. 10.

**1024.** Before any plumbing, water-works or sewer construction is done in any building, or upon any private property, within the Sanitary District, the person, firm or corporation doing the same shall first obtain a permit from said Commission and pay therefor such reasonable sum as the Commission may prescribe. Such work shall be done under and pursuant to such rules, regulations and requirements as the Commission may from time to time formulate, and subject to such inspection as may be deemed necessary. No connection of any kind shall be made with any water main or sewer, constructed or maintained by said Commission,
