

1918, ch. 58, sec. 5.

467. To provide the sum of money necessary to pay the costs and expenses of conducting and operating said plant, in the event that the revenues derived therefrom shall not be sufficient for said purposes, the Mayor and Council of Hagerstown is hereby authorized and empowered to levy annually on every one hundred dollars worth of assessable property in Hagerstown, an amount sufficient to meet said deficiency, and the sum of money collected from said levy shall constitute part of the aforementioned separate fund to be known as the "Water Fund" and be applied to the payment of the costs and expenses of conducting and operating said plant and to and for no other purpose whatsoever. It is hereby expressly provided, however, that this levy shall never be made unless the revenues derived from the sale of water to consumers shall prove inadequate to pay the necessary expenses of the operation and maintenance of said plant.

1918, ch. 58, sec. 6.

468. If the revenues derived from the payment by consumers for the use of water shall at any time exceed the sum of money necessary to pay the costs and expenses of operating and maintaining said plant and making reasonable extensions and enlargements thereof, the sum of money remaining on the first day of April in each year shall be paid by the Board of Water Commissioners to the Mayor and Council of Hagerstown, to be appropriated by said Mayor and Council toward the purchase in the open market of any of the bonds authorized to be issued or assumed under the provisions of this Act for the purpose of redeeming the same and any bonds so purchased shall forthwith be cancelled.

1918, ch. 58, sec. 7.

469. In addition to the powers expressly conferred by this Act, the Mayor and Council of Hagerstown shall have such other powers as are incident thereto, or a necessary consequence of the powers herein conferred, which shall include the right to pass all ordinances not inconsistent with the powers granted by this Act, that may be deemed necessary for the proper preservation and protection of said plant, its waters, streams of water and water supplies and to attach reasonable penalties for violation thereof, to formulate, and enforce all rules and regulations necessary for the proper conduct of the business of said plant, and from time to time to repeal, alter and amend said ordinances and said rules and regulations.

1918, ch. 58, sec. 8.

470. If any claim for service of water, or water rent, shall remain in arrears against any consumer for a period of thirty days, or in case any consumer shall violate any of the rules and regulations relating to said Water Plant which may be passed by the said Mayor and Council, the "Board of Water Commissioners" shall have the right to cut off the supply of water from said consumer, after notice.
