

having first obtained a permit from the Commission and paid a reasonable charge therefor, and such plant shall then be installed, maintained and operated under such rules and regulations as the Commission may require or devise. Any violation of any of the provisions of this section shall be a misdemeanor punishable under Section 444 of this Article.

1927, ch. 676, sec. 13.

435. Every water and sewer connection, as provided for under Section 432, the Commission shall make such charge as it shall determine to be reasonable, based upon the width of the street, road, alley, or right-of-way in which the connection is made, provided, however, that the connection charge on either side of the street, road, alley or right-of-way shall be uniform. All of the revenue, above actual cost, derived from such charges shall be retained by the Commission as a fund for repairs, replacements or any extraordinary expense in the maintenance and operation of the water supply, sewerage and drainage systems under its control.

1927, ch. 676, sec. 14.

436. All sums collected by the Commission, for benefits levied against property for water supply, sewerage and drainage construction shall be set aside as a separate fund to be known and designated the "Current Interest and Sinking Fund", from which fund interest shall be paid on all outstanding bonds, and the balance, if any, transferred to the "Joint Sinking Fund Account", as provided in Section 429. The Commission, in order to determine the amount which it may deem necessary to be levied under Section 429, shall deduct the amount to its credit in said "Current Interest and Sinking Fund", plus such amount as the Commission may estimate that it will be able to collect out of benefits theretofore levied by it but not yet paid, from the whole amount necessary to be raised in any one year for interest and sinking fund payments on outstanding bonds; and the balance then remaining to be raised, shall be the amount to be certified to the County Commissioners of Anne Arundel County for collection by taxation as provided by Section 429.

1927, ch. 676, sec. 15.

437. For the purpose of providing funds for maintaining, repairing and operating its water supply, sewerage and drainage system, and for its operating and other expenses (including proper depreciation allowances), and for interest on and the retirement of bonds as specified in this Act, the Commission is hereby empowered and directed to make such service rates as it may deem necessary, chargeable against all properties having a connection with any water pipe or sewer pipe under its ownership. Said rates shall be uniform throughout each Sanitary District but subject to change from time to time, as may be necessary. The rates for service shall consist of a minimum or ready-to-serve charge, which shall be based upon the size of the meter on the water connection leading to the property, and of a charge for water used, which shall be based upon the amount of water passing through the meter during the period between
