

For purposes of this sub-title, the following shall be defined as noxious weeds; garlic or wild onions (*Allium vineale*), Bermuda grass (*Cynodon dactylon*), quack grass (*Agropyron repens*), dodder (*Cuscuta species*), Canada thistle (*Cirsium arvense*), hawkweed (*Hieracium species*), and chicory (*Cichorium intybus*).

E: The approximate percentage of germination of such agricultural seeds together with the month and year said seed was tested; provided further that the State Board of Agriculture shall be empowered to test and publish the results of such tests as herein provided, together with the month and year such test was made by said Board, together with the percentage of germination and date of test as shown on tag or label.

It shall be permissible for the local merchant or distributor of seed in this state to adopt and use the Analysis furnished by the original seller, and for all intents and purposes the requirements of this section shall be considered as complied with in cases where the said local dealer or distributor permits the Analysis tag of the original seller to remain attached to the proper container of such seed, so long as it is in his possession, for a period not to exceed three months from date of delivery, after which time it shall be the duty of the said local dealer or distributor to attach his or their own Analysis Tag and remove therefrom the Analysis Tag of the original shipper, provided, however, that nothing herein shall be construed as relieving the local dealer or distributor from full responsibility for the accuracy of the Analysis under which said seed is sold.

F: The full name and address of the person, firm or corporation assuming the responsibility, under the condition of this sub-title, for the information placed on the tags or labels as required by this Section.

An. Code, 1924, sec. 118. 1912, sec. 101. 1918, ch. 200, sec. 101. 1927, ch. 460, sec. 118.

118. Mixtures of alsike and timothy, alsike and white clover, redtop and timothy, alsike and red clover, when sold, offered or exposed for sale as mixtures, and in lots of ten (10) pounds or more shall have affixed thereto, in a conspicuous place on the exterior of the container of such mixture of seeds, a plainly written or printed tag or label in the English language, stating:

A: That such seed is a mixture.

B: The name and approximate percentage by weight of each kind of agricultural seed present in such mixture in excess of five (5) per cent. by weight of the total mixture.

C: The approximate percentage by weight of weed seeds as defined in Section 117C.

D: The name of each kind of the seeds or bulblets of the noxious weeds listed in Section 117D, which seeds or bulblets are present singly or collectively in excess of one seed or bulblet in each fifteen (15) grams of such mixture.

E: The approximate percentage of germination of each kind of agricultural seed present in such mixture in excess of five (5) per cent. by weight, together with the month and year said seed was tested; provided
