

otherwise permitted by law. No public moneys shall be expended by the State, any County, legally constituted public water, sewerage or sanitary district for any of the purposes enumerated within this sub-title, unless such expenditure and the amount thereof has been approved by the State Board of Health. Said bonds, stocks or notes shall be forever exempt from State, County or municipal taxation. They shall be a lien upon all property within the jurisdiction issuing them. Bonds, stocks or notes issued pursuant to authority of this section shall be payable in the same manner as bonds issued pursuant to the provisions of Section 393 to 410, inclusive.

See notes to sec. 378.

An. Code, 1924, sec. 337. 1912, sec. 278. 1914, ch. 810, sec. 10.

381. Before land platted for sub-divisions is put upon the market by any corporation, company, persons or person, and before any permanent building is erected thereon, there shall be filed with the State Board of Health a plat of such sub-division, together with a statement as to the methods proposed for supplying the sub-division with water and sewerage service, and such other information as may be required by the Board. The State Board of Health may thereupon order the preparation and submission of such plans and specifications, within a specified time, as it may deem necessary for furnishing adequate water supply and sewerage service to said sub-division; and it may at any time order the installation, within a specified period, in accordance with the plans presented or approved revisions thereof, of the whole or any part of the water supply and sewerage systems for said sub-divisions as the public health may, in its judgment, require.

An. Code, 1924, sec. 338. 1912, sec. 279. 1914, ch. 810, sec. 11.

382. Whenever the State Board of Health shall find that any of the waters of the State are polluted by wastes from any manufacturing or industrial establishment, in such a way as to be or to be liable to become a menace to the public health or comfort, or whenever the existing method of waste disposal in a manufacturing or industrial establishment is found to be or be liable to become in any way a menace to health or comfort, the State Board of Health shall issue an order requiring the owner of such establishment to cease pollution of the body of water into which the waste is discharged, or to make such alterations in the method of disposing of said waste, as the Board may deem necessary to protect the public health and comfort; and said order shall be complied with within such time as the State Board of Health shall determine. Plans for all such changes in the method of disposing of trades wastes shall be submitted to the State Board of Health for approval, and all construction shall be carried out in conformity therewith. If the State Board of Health shall approve the plans submitted, it shall issue a permit for the use of the method proposed for taking care of the waste, and no revised method for taking care of said waste shall be put into effect without such permit. The owner of any manufacturing or industrial establishment shall submit to the State Board of Health, on demand, all plans, information and records regarding the existing methods used for the disposal of wastes at that establishment.

An. Code, 1924, sec. 339. 1912, sec. 280. 1914, ch. 810, sec. 12.

383. Whenever the State Board of Health shall find that the water or ice from any public or private source of water or ice supply is or is likely to
