

or any deputy inspector may at any time suspend an inspection certificate when, in his opinion, the boiler for which it was issued may not continue to be operated without menace to the public safety or when the boiler is found not to comply with the rules herein provided for, and a special inspector shall have corresponding powers with respect to inspection certificates for boilers insured by the company employing him. Such suspension of an inspection certificate shall continue in effect until such boiler shall have been made to conform to the rules and regulations of the Board of Boiler Rules and until said inspection certificate shall have been reinstated.

1939, ch. 718, sec. 140.

160. On and after June 1, 1939, it shall be unlawful for any person, firm, partnership or corporation to operate under pressure in this state a boiler to which this sub-title applies without a valid inspection certificate, as provided for in this sub-title. The operation of a boiler without such inspection certificate or at a pressure exceeding that specified in such inspection certificate shall constitute a misdemeanor on the part of the owner, or user or operator thereof and be punishable by a fine not exceeding one hundred (\$100.00) dollars, or imprisonment not to exceed 30 days or both, at the discretion of the court. Each day of such unlawful operation shall be deemed a separate offense.

1939, ch. 718, sec. 141.

161. No boiler which does not conform to the rules and regulations formulated by the Board of Boiler Rules governing new installations shall be installed in this State after three months from the date of the approval of this sub-title by the Governor.

All boilers installed and ready for use, or being used, before the said three months shall have elapsed shall be made to conform to the rules and regulations of the Board of Boiler Rules governing existing installations, and the formulae therein prescribed shall be used in determining the maximum allowable working pressure of such boilers.

All boilers to be installed after three months from the date of the approval of this sub-title by the Governor shall be inspected during construction by an inspector authorized to inspect boilers in this state, or if constructed outside the state by an inspector holding a certificate from the National Board of Boiler and Pressure Vessel Inspectors, as provided in Section 157 or a certificate of authority from the Chief Inspector of this State, which certificate shall be issued by the said Chief Inspector to any inspector who holds a certificate of authority to inspect boilers, issued by a state which shall have adopted boiler rules that require standards of construction and operation substantially equal to those of this State.

1939, ch. 718, sec. 142.

162. The owner or user of a boiler required by this sub-title to be inspected by the Chief Boiler Inspector, or his deputy inspectors, shall pay to the Chief Inspector eight (\$8.00) dollars for each high pressure boiler except miniature boilers, internally inspected; three (\$3.00) dollars for each high pressure boiler except miniature boilers, externally inspected while under pressure; two and 50/100 (\$2.50) dollars for each miniature boiler internally inspected; provided that not more than eleven (\$11.00) dollars shall be collected for such inspections of any high pressure boiler, made
