

one physician of good character and standing, to reside in the city of Baltimore, whose duty it shall be to make and renew from the cow as often as it may be necessary to keep on hand a supply of vaccine virus, not more than two removes from the cow, and to furnish such virus, to the physicians of the State when called for. He shall keep a record of the name, location, and different times, qualities and quantities of virus furnished to each physician, and shall in addition to his salary, be entitled to receive from the physician, twenty-five cents for each crust or vesicle of lymph furnished in a secure and proper manner. He shall for his services as vaccine agent, receive an annual salary of six hundred dollars; *provided*, that it shall be competent for the Governor at any time to remove said agent for neglect, incompetency or unfaithfulness of any kind, and in case of death, resignation or removal, to appoint another in his stead.

3. For every child vaccinated whose guardian or parents are too poor to pay for the service, the County Commissioners of the several counties or the City Council of Baltimore, as the case may be, shall pay or cause to be paid to the physician performing the service, the sum of fifty cents for every such case, on presentation of such account duly authenticated by an affidavit setting forth, that the service was duly performed, and that the parents or guardians are unable to pay for said service.

4. It shall be the duty of every practicing physician in this State, to vaccinate all children in the circle of his practice which may be presented to him for vaccination, within one year after birth, if such child shall be in proper condition for such service, and he shall vaccinate all other persons not previously effectually vaccinated who shall request such service from him. Any physician neglecting or refusing so to do, shall on conviction thereof forfeit and pay for every offence, a penalty of five dollars.

5. If any physician who shall knowingly and wilfully use any crust or lymph more removes than four from the cow, or any virus defective in its nature, by having passed through a scrofulous system, from having been taken from one laboring
