

cinets, as in their judgment the public interest may require; and to designate the places of holding elections therein and the number by which each of said precincts shall be known.

1876, ch. 154.

**100.** It shall be the duty of the officer of registration in each election district so divided into precincts, when notified by the county commissioners of such division into precincts of any such district prior to the next election, to register all the voters in such district, in the same mode and manner as the voters in other districts are required to be registered by article 33 of the code of public general laws, title "Elections," sub-title "Registration of Voters;" and he shall prepare separate lists of voters according to the sub-divisions of such districts into precincts, designating the election precincts of the districts in which the voters are or shall be respectively entitled to vote, and shall deliver one copy of the lists of voters for each of said precincts to the judges of election thereof.

Ibid.

**101.** It shall be the duty of the county commissioners to appoint three persons for each of said precincts, residents thereof, to act as judges of elections for said precincts, and who shall perform the duties of their office in the manner required by said article 33 of the code of public general laws; and such judges shall make their returns in the same manner as if the said precincts were districts, and in accordance with the laws applicable to judges of elections for districts; and they shall receive the same compensation as other judges of election in said county.

#### FENCES.

P. L. L., (1860,) art. 20, sec. 83.

**102.** Wherever joint fences have been or may be established in said county for the mutual advantage of owners of adjoining lands, each shall keep in good repair his respective proportion thereof in the manner following, that is to say: all post and rail or plank fences shall be at least four feet and a half high, and all worm or other fences shall be at least five feet high, the distance in any case to be computed from the ground or base of any embankment on which the same may be placed.
