

The Weekly Pay Bill has been under consideration by this Federation for several weeks and after mature deliberation this body has reached the conclusion to ask from your Honorable Body the passage of the above mentioned measure.

GEORGE R. HEATH.

President.

MACK HERZOG,

Secretary pro tem.

---

SANCTUARY DISTRICT ASSEMBLY, No. 41, K. OF L.

*Industrial Hall, 316 W. Lombard St.*

BALTIMORE, Md, March 9th, 1892.

*To the Honorable Murray Vandiver,*

*Speaker of the House of Delegates, Annapolis, Md.*

At the last meeting of the District Assembly it directed its Legislative Committee to forward you the following preamble and resolution and respectfully request you to submit the same to your Honorable Body:

Whereas, It is believed that whatever course legislation may take as to the oyster interests, the feature of culling to certain size will be retained; and, whereas, oyster buyers now unload often at night, causing great inconvenience to their laborers, and giving every facility to invade the Cull Law, which it is so important to enforce.

Therefore, be it resolved, That District Assembly No. 41, Knights of Labor, recommends that a section be inserted in the Oyster Law, forbidding, under severe penalties, the unloading of oysters at any wharf in this State between sunset and sunrise.

Respectfully submitted,

DAN'L. T. OREM,

Chairman Legislative Committee,

D. A. 41, K. of L.
