

along the Dorchester County line to its intersection with the Somerset County line; thence northeasterly along the Dorchester County line to a point directly south of Frog Point on Clay Island; thence northerly to Frog Point; thence clockwise along the shore to the most southwesterly point on Clay Island; thence westerly to the most southern point of Bishops Head; thence clockwise along the shore to Crab Point, the point of beginning.

3. Somerset County Only—All the waters of Somerset County except Pocomoke Sound and the Wicomico, Manokin, and Big Annemessex Rivers, which rivers shall be defined as follows:

Wicomico River: Easterly of a straight line drawn from the former dwelling of Thomas Tigner near Hains Point to the most southwesterly point of Clay Island.

Manokin River: Landward or upstream of a straight line joining South Point on Little Deals Island to Hazard Point on the mainland.

Big Annemessex River: Easterly of a straight line from Tenth Point to Porpoise Point; and for the purpose of this section, Tenth Point shall be considered to be the easterly point of the marsh at the entrance into a small creek shown on published Chart No. 7 of the Oyster Survey of 1906 to 1912, at a position of latitude 38 degrees, 2 minutes, 19.20 seconds and longitude 75 degrees, 51 minutes, 39.47 seconds; and Porpoise Point shall be considered to be the most westerly point of the marsh westerly on the Triangulation Station Has.

4. Talbot County Only—The waters lying between a line drawn from Lows Point to Bloody Point Lighthouse and a line drawn from Wades Point to Second Kent or Long Point.

10. (a) Measures Used for Oysters in the Shell and Oyster Shells. All oysters in the shell and all oyster shells sold in this State shall be measured either in a half bushel tub, a bushel tub, a bushel and a half tub or a three bushel tub, and no measures shall be used for measuring either oysters in the shell or oyster shells except an iron circular tub with straight sides and a straight solid bottom, with holes in the bottom for draining; such holes to be no larger, however, than one inch in diameter; and all measurements to be taken from inside to inside; and the dimensions shall be as follows:

Half Bushel Tub—Fifteen inches across the top, thirteen inches across the bottom and seventeen inches diagonally from the inside chime to the top;

Bushel Tub—Sixteen and one-half inches across the bottom, eighteen inches across the top and twenty-one inches diagonally from the inside chime to the top;
