

sion shall have the power and authority to utilize the services of the County Engineer or his assistant for such purposes. The compensation of such employees shall be paid out of the funds of said Commission as hereinafter provided.

129D. The Commission shall be invested with full power and authority, to supervise, regulate, control and require the establishment, maintenance and operation of any sewerage or disposal system, contrivance or device on any property within said Sanitary District. The Commission may promulgate such regulations as it deems necessary to protect the public health relating to the manner of sewage or drainage disposal and to require the installation of sewage or drainage facilities in compliance with such regulation. The Commission shall consult with the County Health Officer and seek his advice and recommendations as to all health or sanitation problems arising under the provisions of this sub-title.

129E. Upon the failure of any person to obey any regulation promulgated under the provisions of Section 129D of this sub-title, the Commission shall pass an order directing such person to comply therewith within a period of not less than thirty days and failure to obey such an order shall be a misdemeanor punishable under Section 129M of this sub-title.

129F. Before any person, association or corporation shall begin the construction of any building within the Sanitary District, or undertake the installation, alteration or modification of any plumbing, drainage or sewage disposal system such person, association or corporation shall first obtain a permit therefor from the Commission and pay such reasonable sum as the Commission may prescribe for such permit. Such permit may be obtained by filing with the Commission complete plans and specifications of the proposed building, installation, alteration or modification, showing in detail the specifications of facilities for the disposal of sewage and drainage. If it appears to the Commission that said specifications are adequate for the protection of public health and safe and sanitary disposal of sewage and drainage, it shall issue such permit. Such work shall be done under and pursuant to such rules, regulations and requirements as the Commission may from time to time formulate and subject to such inspection as the Commission may deem necessary.
