

be six years; provided, however, that the first three appointees shall hold office as follows; one for a period of two years, one for a period of four years and one for a period of six years. The Governor may for just cause remove any appointed member of the Commission and fill any vacancies for the unexpired portion of the term.

No salary or compensation shall be allowed any member of the Commission for services rendered. Actual and necessary travel and other expenses incurred by the members in the discharge of their official duties as members of the Commission and by direction or request of the Commission shall be paid from any funds which are or may become available for the purpose of this sub-title.

The Commission shall organize and make its own rules, regulations and procedure, shall meet quarterly and shall keep a record of its proceedings which shall be open to the public for inspection. All rules, regulations or orders affecting more than one person shall be given such reasonable publication by the Commission as it shall determine. Special meetings may be called by the Chairman or by three members of the Commission by delivery of written notice to each member. Four members of the Commission shall constitute a quorum.

30. It shall be the duty of the Commission to study, investigate and from time to time recommend ways and means of eliminating from the waters of the State, so far as practicable, all substances and materials which pollute or tend to pollute the same and to recommend methods, as far as practicable, for preventing pollution as defined in Section 28 of this sub-title.

The Commission is hereby authorized to encourage voluntary cooperation by the citizens of the State and by the industries, municipalities, counties, metropolitan districts and the State in restoring, preserving and maintaining the purity of the waters of the State, for the greatest benefit of all the people of the State; to coordinate and stimulate the activities of the several State agencies now concerned with water pollution; to enforce existing laws relating to the abatement of pollution of the waters of the State; to supplement and expand existing technical or other water pollution data by study, investigation, research or other means that may be available; to cooperate with, assist and aid other State agencies engaged in assembling, accumulating or developing additional data or information on water pollution; to cooperate with, assist and aid other State agencies in enforcing water pollution laws or regulations; to recommend standards for sewage or waste effluents discharged into the waters of the
