

28. DISCONTINUANCE OF DISTRICTS. At any time after five (5) years after the organization of a district under the provisions of this Act, any twenty-five (25) occupiers of land lying within the boundaries of such district may file a petition with the State soil conservation committee praying that the operations of the district be terminated and the existence of the district discontinued. The committee may conduct such public meetings and public hearings upon such petition as may be necessary to assist it in the consideration thereof. Within sixty (60) days after such a petition has been received by the committee it shall give due notice of the holding of a referendum, and shall supervise such referendum, and issue appropriate regulations governing the conduct thereof. All occupiers of lands lying within the boundaries of the district shall be eligible to vote in such referendum. Only such land occupiers shall be eligible to vote. No informalities in the conduct of such referendum or in any matters relating thereto shall invalidate said referendum or the result thereof if notice thereof shall have been given substantially as herein provided and said referendum shall have been fairly conducted.

The committee shall publish the result of such referendum and shall thereafter consider and determine whether the continued operation of the district within the defined boundaries is administratively practicable and feasible. If the committee shall determine that the continued operation of such district is administratively practicable and feasible, it shall record such determination and deny the petition. If the committee shall determine that the continued operation of such district is not administratively practicable and feasible, it shall record such determination and shall certify such determination to the supervisors of the district. In making such determination the committee shall give due regard and weight to the attitudes of the occupiers of lands lying within the district, the number of land occupiers eligible to vote in such referendum who shall have voted, the proportion of the votes cast in such referendum in favor of the discontinuance of the district to the total number of votes cast, the approximate wealth and income of the land occupiers of the district, the probable expense of carrying on erosion control operations within such district, and such other economic and social factors as may be relevant to such determination, having due regard to the legislative findings set forth in Section 16 of this Act; provided, however, that the committee shall not have authority to determine that the continued operation of the district is administratively practicable and feasible unless at least a majority of the votes cast in the referendum shall have been cast in favor of the continuance of such district.

Upon receipt from the State Soil Conservation Committee of
