INVENTORIES AND ACCOUNTS

As has already been indicated, a separate series was established for recording inventories and accounts in 1674. The series continued until 1718. In a number of cases, two or three of the original libers have been bound into a single volume. These volumes are now arranged chronologically and numbered from 1 to 39. In addition, volume No. 19½ has been inserted into the series, making a total of 40 volumes.
