

arise therefrom. Any violation of the provisions of this section shall be a misdemeanor punishable under Section 444 of this sub-title.

Section 434. Before any plumbing, water works or sewer construction is done in any building or upon any private property within any sanitary district the person, the firm or corporation doing the same shall first obtain a permit from the Commission and pay therefor such reasonable sum as the Commission may prescribe. Such work shall be done under and pursuant to such rules, regulations and requirements as the Commission may from time to time formulate, and subject to such inspection as it may deem necessary. No connection of any kind shall be made with any water main or sewer constructed or maintained by the Commission without a permit and under such conditions as the Commission may authorize. In order to prevent waste of water the Commission or its agents or employees shall have the right of entry at reasonable hours to all buildings or premises having any connection with the water supply or sewerage systems under its jurisdiction, and may, upon presenting proper credentials from the Commission, order and require such changes in all plumbing, water works or water or sewer connection as it may deem necessary to eliminate leakage, loss of water or unnecessary or improper use of sewers. The said Commission shall exercise control of the water supply at all times, and in case of a shortage of water or for any other reason where the water supply should be conserved in the discretion of the said Commission and upon notice to the consumer by its agents or employees, or any newspaper published within said county one time of an order passed by said Commission to conserve the water supply. Any violation of said order shall be a misdemeanor punishable under Section 444 of this sub-title; and in addition to the penalty prescribed the Commission may turn off said water supply of any person violating said order at any time without further notice. Nor private or semi-public water supply or sewerage installation intended for the use of two or more buildings or premises shall be constructed in any sanitary district without the person, firm or corporation doing the work having first obtained a permit from the Commission and paid a reasonable charge therefor, and such plant shall then be installed, maintained and operated under such rules and regulations as the Commission may require or devise. The Commission shall have full and complete jurisdiction over all fire hydrants connected with its water system and no
