

1 of the Board, not in this Bureau.

2 Well, getting back to this subject --

3 MR. GOLDSTEIN: You can't find a situation
4 where everybody will love you.

5 THE CHAIRMAN: Getting back to the thing our
6 Committee is particularly interested in, Louie, you said
7 you had a sheet there that gave the various duties of
8 the Comptroller and what you did. We would like to have
9 that.

10 MR. GOLDSTEIN: All right.

11 THE CHAIRMAN: Do you think there should be
12 one central place into which flows all State revenues?
13 We don't have this now.

14 MR. GOLDSTEIN: I think it would make a much
15 sounder financial setup, if you had all the monies
16 flowing into one central depository. No question about
17 that.

18 THE CHAIRMAN: In other words, have, in effect,
19 one department of revenue which would collect or would
20 have the obligation of getting all of the revenues.
21 Would this be right?
