

1 reforn, isn't it? You really don't have to go to the
2 Constitution for that.

3 MR. NOSSEL: No. It is quite feasible to bring
4 that together. In the specialized areas such as motor
5 vehicles and insurance, I don't think it is too feasible.
6 I think you are really going to increase the cost of
7 government.

8 THE CHAIRMAN: You collect for the gasoline
9 tax?

10 MR. NOSSEL: That is right. That is collected
11 completely from different sources.

12 THE CHAIRMAN: You also collect the titling
13 tax?

14 MR. NOSSEL: No, Department of Motor Vehicles
15 does. If we collected the titling tax, you would
16 separate that from the actual issuance of the title.
17 Presently it is simpler from the point of view of the
18 public to get title and pay the tax at one time than it
19 would be to go through two separate transactions. The
20 same thing with the license. You get your license and
21 pay for it.
