

1 matter of raising it. Would it make any difference if  
2 this court was complete within a division of a total  
3 court system?

4 JUDGE FRIEDMAN: No, I am not against  
5 that personally. I am not for rotating it.

6 MR. HARGROVE: Not for rotating judges?

7 JUDGE FRIEDMAN: That is right, because of  
8 my experience, I keep on saying I because of my experience,  
9 I find, I am not ashamed, I should be proud, I get calls  
10 from the judges of the Supreme Bench and they come down  
11 to talk to me on these matters, not because they are not  
12 good judges, they just don't meet these problems everyday.  
13 What it took Judge Colgan a year and a half to learn  
14 and took me twelve years to learn, I am sure the  
15 judges of a higher court or equal court to us are  
16 not going to learn within a year or two. You give them  
17 a year to rotate, next one comes in with the same  
18 problem, he will run to somebody else to ask them, what  
19 can I do about it? I am not saying the three judges in  
20 Orphans Court now are the smartest in testamentary law  
21 but I feel we do have experience and we can do a job.
