

1 all of us, so that we might see it in proper perspective.
2 I was very much interested in your categorization of the
3 three stages.

4 I wonder, procedurally, if we were to take,
5 let us say before we open up this for discussion, if we
6 would take no more than ten minutes, and I don't want in
7 any sense to state this will be our procedure, but it is
8 a possibility, for a break and to bring up here our own
9 sandwiches and coffee which we can get downstairs and
10 then continue and pursue this while we are having our
11 sandwich and coffee, and while we hear from Mr. Kentner
12 and Dr. Wheeler.

13 We have brought Mr. Kentner here as a native
14 of Nebraska who will bring together some of this history
15 Dr. Graves has described with a good deal of vividness and
16 personal relationship up to date, because I am sure he,
17 like I, couldn't help but to think of the great debate
18 that went through the State of Nebraska as to whether
19 they should even put a bust in that statuary hall where
20 they have the bust of Lincoln; after thirty years, this
21 occurred. So, he is still a symbol.
