

1 complete wilderness.

2 DR. BURDETT: Theoretically, you can go to
3 Karl Everstein's office, but this is inconvenient, to say
4 the least.

5 THE CHAIRMAN: I understand that that statute has
6 not been very productive insofar as he was concerned. Mr.
7 Thompson?

8 MR. THOMPSON: Mr. Chairman, I agree with that.
9 I understand it has not been very productive, and I have
10 two points relative to what you and Professor Burdett have
11 been saying; one, with respect to this very point you are
12 discussing, metropolitan government.

13 The study which I referred to a few moments
14 ago in Wicomico County with respect to the form of govern-
15 ment in that county and the City of Salisbury, they, the
16 study group, has reviewed the metropolitan government
17 experiments, you might call them, in the United States.
18 For example, in Dade County, Nashville, and even in Canada
19 Toronto and other areas, these are studies which exist
20 and perhaps this Committee might well use as a source of
21 materials and might find it quite helpful.
