

1 be an advisory board.

2 DR. ZIMMERMAN: Well, I think we need a board
3 to make policies. I think that is the purpose of a
4 board, not as advisor to the State. I don't think we
5 want to make the State Superintendent a power unto him-
6 self. He needs the board to make policies for him.
7 The State Superintendent has no right to make policy.
8 He makes a recommendation after a study to the board
9 and then the State Board makes policy.

10 I think this is the way it should be. There
11 should be a delicate balance between the executive who
12 is the State Superintendent and the State Board which
13 in effect is the legislative arm of the State school
14 system. No, I don't think that would be good, because
15 I think we need lay policy-making boards to help us make
16 policy. There is always the danger, when you place too
17 much power in the hands of one person -- and this is no
18 reflection on Dr. Pullen or anyone.

19 MR. ENEY: Would you limit the State con-
20 stitutional provision to the State Board or would you
21 think it would be desirable that there be a State
