

1 questions that I can, that you want to ask.

2 MRS. FREEDLANDER: I would just like to ask  
3 you would you have any objection to an article that would  
4 be entitled the Legislature -- and this is in the process  
5 of being reviewed, as we are reviewing the Declaration  
6 of Rights, if we embodied in that the time and place of  
7 the Legislature and the frequency of meetings and that  
8 kind of thing? We have a very short Bill of Rights  
9 within the U. S. Constitution, which you mentioned, and  
10 here we have forty-some articles that we have had more  
11 or less over the years in the varying constitutions.  
12 Would you have any objection to their being within an  
13 article under the Legislature rather than here? And,  
14 with reference to your point on the militia, we had a  
15 hearing with Generals Reckord, Ogletree and Gelston,  
16 and they felt that these articles could very well be  
17 under a militia article. We do have a militia article  
18 and then we have these. Would you have any objection  
19 to including what is presently under the Declaration of  
20 Rights in a militia article? They had no objection to  
21 that when we questioned them.
