

1 maximum number in any house, whether it's one of the two
2 systems?

3 DELEGATE MANDEL: I'm speaking strictly on a
4 bicameral legislature. Unicameral legislature, I frankly
5 wouldn't speak for. I talked to people who served in it
6 out in Nebraska and I think it has a lot -- while it has
7 been less expensive to operate, I think, as far as the
8 effect of it, I don't think it is as effective as a two-
9 body system. I just think that with the unicameral
10 legislature you concentrate too much power in a few
11 people.

12 MR. ENEY: The other question I wanted you to
13 comment on, in line with what you were saying, I take it
14 you feel there is, as in a State like Maryland, some
15 practical limit on the number you can have in one house,
16 whether it's the only house or whether it's one or two?
17 At some point, one or the other principle has to give.
18 Either you have to take the ceiling off the number or you
19 have to give up the idea that every county is entitled to
20 at least one. Which is the one that you think would have
21 to give way first?
