

1 to be represented by an elected representative. That is
2 the way I feel.

3 DELEGATE MANDEL: That's the way Congress does
4 it. If there is a vacancy in the House of Representa-
5 tives, there is a special election. If there is a vacan-
6 cy in the Senate, it's appointed.

7 SENATOR HUGHES: For six years, if he dies
8 the day after he is sworn in.

9 THE CHAIRMAN: Any further comment on that?
10 All right, let's move on. We answered some of these,
11 but let's go back to this matter of residency in the
12 State, in the county, what requirements as to eligibility
13 of a member of the legislature should be included in the
14 new Constitution? Should there be a residency require-
15 ment in the State or in the county or legislative district?
16 Should only a registered voter be eligible? How about
17 that? What residency requirement would you have for
18 those who would run for office in the legislature?

19 MR. ENEY: And you are talking here not about
20 what should be required, but what should be required in
21 the Constitution.
