2 MR. BROOKS: I wanted to make a comment about  
3 the questions also. Insofar as we pose questions, we want  
4 to furnish material on which the Commission can base some  
5 judgment, unless it is so clearly a policy question, in  
6 the nature of local conditions, and they are within the  
7 knowledge of all Commission members and they don't need  
8 any supportive information, and in that regard we are not  
9 in a position to ask questions quite yet. Secondly, I  
10 think we want to probably present two or three policy  
11 questions rather than a list of questions and, if the  
12 Committee can give a recommendation, so much the better,  
13 but what I was thinking of particularly, we have nine  
14 questions listed here, the first four of which perhaps  
15 can be boiled down into two primary policy questions  
16 and the last five are probably more in the nature of  
17 decisions to be made by the Committee, not necessarily  
18 presented to the Commission at all.

19 I am thinking perhaps in terms of the second  
20 and third questions. It presents some rather clear-cut  
21 policy questions that, other than the experience of other
