

———— Notice of a relief map of Baltimore.

Science, vol. xvii, 1891, p. 339.

Brief description of the model now in the Geol. Laboratory of the Johns Hopkins University.

CLARK, WM. B. Correlation papers—Eocene.

Bull. U. S. Geol. Surv. No. 83, 1891.

House Misc. Doc., 52nd Cong., 1st sess., vol. xx, No. 25.

(Abst.) Johns Hopkins Univ. Cir. No. 103, vol. xii, 1893, p. 50.

The author gives the literature and an historical discussion of the same, pp. 20-33; characteristics of the formation, pp. 43-45, and correlation, p. 80.

———— Report on the Scientific Expedition into Southern Maryland. [Geology; W. B. Clark. Agriculture; Milton Whitney. Archaeology; W. H. Holmes.]

Johns Hopkins Univ. Cir. No. 89, vol. x, 1891, pp. 105-109.

Describes areas previously considered, giving structural and columnar sections with a few of the type fossils.

CLARKE, F. W. Report of work done in Division of Chemistry and Physics, 1889-90.

Bull. U. S. Geol. Surv. No. 78, 1891.

House Misc. Doc., 52nd Cong., 1st sess., vol. xx, No. 25.

Analyses by T. M. Chatard of Websterite, and diopside from Hebbsville, p. 122.

DARTON, N. H. Mesozoic and Cenozoic Formations of Eastern Virginia and Maryland.

Bull. Geol. Soc. Amer., vol. ii, 1891, pp. 431-450, map, sections.

(Abst.) Amer. Geol., vol. vii, 1891, p. 185.

Amer. Nat., vol. xxv, 1891, p. 658.

A general discussion of the different formations and their type localities, accompanied by a geological map and sections.

DAVIS, W. M. The Geological Dates of Origin of Certain Topographic Forms on the Atlantic Slope of the United States.

Bull. Geol. Soc. Amer., vol. ii, 1891, pp. 541-542, 545-586.

(Abst.) Amer. Geol., vol. viii, 1891, p. 260.

(See figs. 3 and 4 on pp. 650-561 for Cretaceous peneplain in Maryland, also neighboring text). A general study of the peneplains and the Piedmont Plateau of the Atlantic slope, in which it is maintained that the Permian and Jurassic constructional topography of the Atlantic slope was practically obliterated over the greater part of the area, resulting in a Cretaceous peneplain.

DOUGLAS, JAMES. The Copper Resources of the United States.

Trans. Amer. Inst. Min. Eng., vol. xix, New York, 1891, pp. 678-703.

Merely a mention of the abandoned Liberty mines.

DUNNINGTON, F. P. Distribution of Titanic Oxide upon the Surface of the Earth.

Amer. Jour. Sci., 3rd ser., vol. xlii, 1891, pp. 491-495.

Percentage of titanite oxide found in a "limestone soil" from Worthington's Valley, Baltimore county, Md. Air dried 1.17 per cent., ignited 1.26 per cent., p. 492.
