

1 We have this argument.

2 MR. CASE: That is why I thought the whole  
3 thing could be obviated by sending it back to them and  
4 letting them bring in something.

5 MR. CLAGETT: I have no difficulty in voting  
6 against the substitution of the present Article 1 for  
7 the new section because I do think that it has been made  
8 clear that the philosophy of government has changed from  
9 that day to the present. Certainly now the attitude of  
10 all people should be peaceful rather than violent. This  
11 does seem to give an endorsement to violence. Contrary  
12 to what I say now is ingrained.

13 I have great difficulty with the fundamental  
14 propositions that have been raised by Mr. Case where  
15 he says that really by adopting the eleven sections  
16 which <sup>COM</sup> expose the new Declaration of Rights we are  
17 abandoning historic language and we are abandoning  
18 mile posts which are distinctive of our whole state as  
19 distinguished from those of Alaska and Hawaii and some  
20 of the newer ones as well as some of those that may be  
21 in between.
