

1           The reason for the discussion today stems  
2 from the fact that on this one issue, whether the  
3 recommendation should be for one or the other even  
4 though both are drafted, the Commission heretofore  
5 split almost evenly with a slight majority one way.  
6 They had a hearing with the legislative group. They  
7 split almost evenly with a slight majority the other  
8 way. The Committee on its reconsideration, as I under-  
9 stand it, again split almost evenly but with a slight  
10 majority the opposite way.

11           I should have added that this Commission in  
12 its initial discussion of this issue almost went  
13 right down the middle also.

14           So that I think, Dr. Bard, you have gotten  
15 about as much help as you can get from this group today  
16 on this question.

17           DR. BARD: Yes, Mr. Chairman. I would  
18 like to add this. Some of you may want to take notes  
19 on papers and review them. First when you review Dr.  
20 Graves' paper, which was rather definitive in this area,  
21 Dr. Wheeler's paper, Dr. Mitchner's paper, Dr. Winslow
