

1 DR. BURDETTE: Yes, I think that again the
2 language perhaps can be improved. I think it was
3 probably written not with any idea that someone is going
4 to start shooting at the governor and Legislature but
5 rather what I really subscribe to and I think^{it}/is an
6 immensely modern liberal position that if the people of
7 the State of Maryland want to say that the way our
8 government is being administered is wrong, they have a
9 right to say it. Maybe we need the word peaceable
10 in it but I don't see anything in here which says not
11 peaceable. I think resistance has historically had the
12 view that if we want to get up and say that public
13 housing is not being administered correctly in this
14 state, we can shout it from the roof tops. I like to
15 preserve that kind of meaning which I see in the latter
16 part of Article 6.

17 THE CHAIRMAN: Mr. Case, in order to save
18 time, might I suggest if this meets with your approval
19 that you amend your motion to refer Section 1 back to the
20 Committee with the direction that the Committee redraft
21 Section 1 to include the substance of Articles 1 and 6
