

1 because at the present time, there is a serious question  
2 as to whether the State is not going to have to furnish  
3 counsel to be with any person being interrogated as to a  
4 crime, once he becomes the object of suspicion, so I  
5 think you couldn't possibly delineate all the situations.

6 MRS. BOTHE: I do feel that that phrase would  
7 mean that a person with a parking ticket might be able to  
8 demand, if he couldn't retain private counsel, to demand  
9 under Section 7 of the new Declaration of Rights, that  
10 an attorney be appointed to appear with him.

11 THE CHAIRMAN: Can we get going again, please?

12 I would like to announce that Dr. Furman  
13 Templeton's absence today is due to illness. As all of  
14 you know, he was very anxious to be present at the  
15 sessions of the Commission discussing the Declaration of  
16 Rights, and we were puzzled when he did not come down  
17 yesterday. Mrs. Templeton called me this morning and  
18 said that he was ill and could not be here yesterday or  
19 today. We regret this very much.

20 Now, we will resume the discussion with Sec-  
21 tion 7.
