

1 and the first principle is the question of cross-examina-  
2 tion.

3 JUDGE ADKINS: I would refer Mr. Clagett to  
4 have my question dealt separate and apart from that  
5 because I think yours has major overtones that might serve  
6 to defeat mine, and I don't want mine defeated.

7 MR. CLAGETT: On that basis, I will yield.

8 THE CHAIRMAN: Is there further discussion  
9 on the question of cross-examination? How many would  
10 favor having the Committee include in Section 7 a specific  
11 protection for the right of cross-examination. Opposed.  
12 14 to 2.

13 Now, Mr. Clagett, you made earlier a sugges-  
14 tion of including something from Article 21, not this  
15 question of discovery but an earlier suggestion. I didn't  
16 want to overlook it. Do you recall what it was, some  
17 language of Article 21.

18 MR. CLAGETT: It was merely, To have the right  
19 of examination of witnesses for and against him on oath,  
20 and I would like to move that that also be considered  
21 by the Committee, namely, to include the requirement that  
~~the witnesses be examined on oath, or affirmation.~~
