

1 adjourn about 5:30 for a little break before dinner and
2 then come back perhaps at 7:30. We will have the exact
3 time before we break up this afternoon. One other general
4 observation before we start on the consideration of the
5 Committee Reports. As all of you know, we have had the
6 stenographic reporter present at the last three Commission
7 meetings and have been taking the transcript of the pro-
8 ceedings of the Commission. This is an item for which we
9 did not budget. It is specific. We have considered whether
10 the cost/^{is} justified and whether we should dispense with
11 it. The experiences indicate that without it, the staff
12 and more particularly the Committee reporters and Chair-
13 man are really lost. We can't possibly sit here and
14 engage in debate and make notes at the same time as to
15 the action of the Commission, so that for this reason, for
16 no other, we will continue to have the transcripts. There
17 is, however, another reason. I have discussed this, not
18 with a large number, but with various Members of the
19 Commission, and their feeling uniformly is that this is
20 the only way we can really have a record of the discussion
21 and debate of this Commission and give us the basis for
