

1 and then of course, the Governor would make the appoint-
2 ment for the entire remaining two years, but in order
3 to avoid that quite real possibility that you brought up,
4 Mr. Chairman, we should simply provide for an election for
5 the remainder of the term.

6 DR. WINSLOW: Why does not the last phrase in
7 the Section take care of that, at which time, that the
8 next biennial general election, any remaining portion of
9 the term shall be filled by election. It doesn't matter
10 whether the Governor has appointed or not.

11 MR. CASE: That would be my interpretation.

12 DR. WINSLOW: I think that Judge Adkins'
13 time schedule may be a desirable thing to put in, in order
14 to make sure that there is time for candidates to get
15 in. I had assumed that in speaking of the next biennial
16 general election, it would be an interpretation of a court
17 at least, the time would have to be allowed to get a
18 man's name on the ballot.

19 THE CHAIRMAN: That is a different question from
20 Dr. Burdette. Dr. Burdette, are you satisfied with the
21 explanation concerning the last phrase, the last two lines?
