

1 the off season to my mind would be a very serious blow
2 to the ability of the General Assembly to find the facts.
3 I sincerely believe that if the, as we go forward we
4 won't see things that happened like the savings and loan
5 scandals a few years ago, go undected by the Legislature,
6 and had the Legislature exercised its powers in those
7 areas as I think it would today, at that time a lot of
8 grief in this State would have been avoided.

9 So, if that is what Stan Hoff's motion went
10 to, then I say it is, we are just hamstringing the legis-
11 lative fact finding authority, and I think that we should
12 reconsider the vote, and I would ask that it be recon-
13 sidered and substitute in lieu thereof the idea that
14 Mr. Sykes suggested, namely, that this matter be referred
15 to the Committee with the idea that appropriate research
16 be given to it because actually we are talking about
17 a very serious matter; and I don't think we have enough
18 facts.

19 THE CHAIRMAN: Is there a second?

20 MR. CLAGETT: I second that except for the
21 latter part of it.
