

1 listening to the debate and having my good friend,
2 Stan Hoff, say the Legislative Council doesn't have
3 the power, and I am pretty sure I have read in the statutes
4 that it does have the power, I think that this discussion
5 would be much more meaningful if each of us had an oppo-
6 rtunity to read and study a research memorandum that the
7 Commission's staff would make. I am therefore strongly
8 urging that before we try to vote on something that some
9 of us at least are confused about, and I will certainly
10 say that I am, that we have that opportunity; and there-
11 fore I would like to make a motion in substitution
12 for the one that is before the Commission, and that is
13 that this matter be re-referred to the Committee with
14 appropriate instructions that its research staff bring us
15 back a meaningful document from which we can base a
16 judgment.

17 MR. CLAGETT: I would second that.

18 THE CHAIRMAN: Mr. Hoff, will you second the
19 amendment?

20 MR. HOFF: No, sir, I will not, but I will
21 second if the motion is defeated.
