

1 budget. The budget bill is something entirely different,
2 although very close to it. The budget bill is the actual
3 bill that goes into, or is introduced into the General
4 Assembly. It does not contain the budget message, for
5 example, it does not contain a P and L statement. It
6 does contain appropriations for programs, so we are going
7 to be talking about two things, and don't let's get
8 them confused: The budget and the budget bill.

9 Very well. Section 1 is really a consolida-
10 tion of Subsections 1 and 2 of Section 52, and it says:
11 The General Assembly shall not appropriate any money
12 out of the Treasury except by a budget bill or a supple-
13 mentary appropriation bill, as hereinafter provided.

14 This is declaratory and in effect a combina-
15 tion of the first two Sections of Section 52 and perfects
16 no change in substance in the present provisions.

17 Subsection 2 says --

18 MR. SCANLAN: Mr. Case, Mr. Chairman, are
19 we going to go through the proposal as to individual
20 Sections generally and then come back and take them up
21 one at a time?
