7 right to this extent, at least, that when you use all
8 three words, local school systems, in present day connota-
9 tion, that this would almost certainly mean a public
10 school, but I think he is also correct that it is entirely
11 possible that in the future, the local subdivision would
12 adopt a system embracing both public and private schools,

14 rect, that local school system might then embrace the
15 private system.
